SKILLS

Programming Language:

- C, C++
- JavaScript (ES6+), TypeScript

Front-end Technology:

- HTML 5, CSS 3, Sass
- React Js, Redux, Next.js, Tailwind CSS
- BootStrap, Metrial-UI etc.

Back-end Technology:

- Node Js, Express Js

Data Base:

- MongoDB, Mongoose
- Postger SQL

Version Control:

- Git, Github

Tools & Technologies:

- npm ,yarn
- Docker, Postman
- VS code
- Netlify, Vercel, Heroku

EDUCATION

B.C.A (Bachelor of Computer Applications)

Berhampur University

2018-2021

12th board

T.T College, Purushottampur

2016-2018

CERTIFIATION

Mern Stack Development

Udemy

CSS, REST Api, Problem Solving,

Hackerrank

PROFILE

Experienced MERN Stack Developer with 2 years of hands-on experience in developing dynamic web applications. Proficient in MongoDB, Express.js, React.js, and Node.js. Skilled in both front-end and back-end development, with a focus on meeting client requirements and delivering user-friendly interfaces. Recognized for collaborative teamwork and commitment to continuous learning. Ready to contribute technical expertise to drive success within your team.

WORK EXPERIENCE

Front-end Developer

Fulcro Consulting

Sep-23 to Current

- Transitioned seamlessly into a role focused on TypeScript and Next.js development, contributing to the enhancement of existing web applications and the creation of new projects.
- Utilized TypeScript to enforce strict typing and enhance code readability, leading to improved maintainability and reduced bugs.
- Developed server-side rendering (SSR) capabilities using Next.js, resulting in faster page load times and improved SEO performance.
- Implemented dynamic routing and data fetching strategies to optimize user experience and streamline content delivery.
- Collaborated closely with designers and front-end developers to ensure pixel-perfect implementation of UI/UX designs.
- Demonstrated adaptability and a quick learning curve in mastering new technologies and frameworks.

Associate Digital Engineer

RapidQube Digital Solution

Mar-22 to Aug-2023

- Spearheaded the development of multiple full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Leveraged JavaScript (ES6+) to build interactive user interfaces, incorporating Redux for state management and responsive design principles.
- Implemented RESTful APIs to facilitate seamless communication between front-end and back-end systems, optimizing performance and scalability.
- Actively participated in code reviews, providing valuable feedback to enhance code quality and maintainability.
- Employed version control tools like Git and GitHub to manage code base and streamline collaboration processes.
- Collaborated closely with cross-functional teams to gather requirements, architect solutions, and deliver high-quality products within strict timelines.

PROJECTS

EV-Bike Rental System

- Description: Developed an electric bike rental platform with user registration, bike booking, and admin dashboard.
- Technologies Used: MongoDB, Express.js, React.js, Node.js, Redux, Bootstrap

Movie Recommendation Website

- Description: Created a movie recommendation site allowing users to browse, view details, and receive personalized movie suggestions.
- Technologies Used: React.js, Redux, REST API
